### THE STATE OF NEW HAMPSHIRE

[L. S.]

*To the inhabitants of the Town of Newbury in the County of Merrimack, in said State, qualified to vote in Town Affairs:*

You are hereby notified to meet at the Town Hall in said Newbury on Tuesday, the ninth day of March next, at nine of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To raise such sums of money, as may be necessary to defray town charges for the ensuing year and make appropriations of the same.

3 To see if the Town will raise and appropriate the sum of \$1905.00 and the State to contribute the sum of \$1905.00 to be expended in continuing State road on the so-called South Road.

OR

To see if the Town will raise and appropriate the sum of \$547.68 and the State will contribute \$2,190.71 to be used on Class V roads.

4. To see if the Town will raise and appropriate money for the control of White Pine Blister Rust.

5. To see if the Town will appropriate \$1,049.50 to finish the W. P. A., job at the end of Lake Sunapee if the U. S. Government will furnish the balance of their part.

6. To see if the Town will vote to raise and appropriate the sum of \$500.00 for oiling the steep hills on Class V highways that have been improved and put in good shape.

Given under our hands and seal, this 20th day of February, in the year of our Lord nineteen hundred and thirty-seven.

JOHN W. SHAW,  
JOHN H. GILLINGHAM,

\* Unrepeated registration for the district.

Each school had the full number of 360 half-day sessions. The percent of attendance was low on account of sickness. The number of tardinesses is very high except at the Center School where it is low. Every effort should be made to keep amount of tardiness at a minimum.

The total number of different pupils registered in the district was 83. There were also three elementary school pupils

who resided in the district and attended Bradford schools. One high school pupil at Concord; two at New London; two at Newport and three at Warner. This makes a total of 104 pupils residing in the district and attending public schools.

The report of the school nurse Miss Ruth B. Whitcomb, R. N. shows that there were two pupils with defective vision, both of whom had the defects corrected; five pupils 10% or more underweight, three of whom were receiving treatment; eight cases of diseased tonsils, one of which was corrected; seven with enlarged glands of whom three were being treated, and forty-seven pupils with defective teeth of whom seven had defects corrected. There were thirty-three cases of measles, three of mumps and three of whooping cough during the year. This accounts to a considerable extent for the low percent of attendance. In May a toxoid clinic was held.

On account of the large number of pupils at the South School, grades 7-8 of that school were transported to the Center School for the greater part of the year. This plan has not only been successful in relieving the congestion at the South, but has given a larger group in these grades at the Center as a result of which the interest of the pupils increased, and the teacher was enabled to specialize somewhat in the work of the upper elementary grades. The plan has been continued into the following year.

There ought to be two rooms at the Center School,—one for upper grades and one for lower,—and the present building should be enlarged for this purpose. We recommend that the district make this improvement as soon as possible.

Extensive alterations are almost imperative at the Baker Hill School. For the past few years there has been only one toilet there for the use of both sexes. While the school numbered only about a dozen or so of pupils this arrangement was suffered to stand, but with a registration of 22 in the fall of '36 it was condemned by the State Department. A temporary toilet for the boys was put up outside. Next year an addition

for housing two toilets and a year's supply of wood should be made, or some alternative plan adopted. The cost of putting in toilets at the school, either chemical or septic, is likely to be considerable as the building stands on almost solid ledge.

The best solution of this problem would be for the district to enlarge the Center School to two rooms, where the grades might be separated, and consolidate the Baker Hill School with it. Flush toilets may be installed with the supply of running water at the Center School, thus removing the annual cost of about \$50 for chemical.

The three schools of the district are already about filled to capacity. The Center School is somewhat crowded. Within the past eleven years the number enrolled in the district has increased from 37 to 83 and the total number, including High School pupils from 46 to 104. There has been a steady increase in the school population, and it seems likely to continue a few years more. Therefore considering the investment necessary to carry on at Baker Hill, the advantage in separating the upper and lower grades, the steady increase in the school population and the opportunity for improved facilities at the Center School, the addition, of another room at the Center will be in the end the most economical and educationally advantageous solution of the principal problems of the district.

It has been a great pleasure to work with the parents, pupils, teachers and board in friendly cooperation for the good of the schools.

Respectfully submitted,

JOHN A. SINCLAIR,
